## The MONROE Solid Porcelain Refrigerator for "The House Beautiful"

A handsome, expertly-built, lifetime refrigerator that is specified by leading architects throughout the country and is found in thousands of the most particular homes where the **best** is demanded.

Famous for its beautiful snow-white food compartments of genuine solid porcelain ware, over an inch thick, with full rounded corners. Made in one piece, there are no dirt-collecting crevices or cracks. They are clean and **stay** clean.

The "MONROE" is built in a great variety of regular stock sizes—ready for immediate shipment. Also built-to-order to meet special requirements. Can be used with ice or mechanical refrigeration.

The "MONROE" is shipped direct from our factory—freight prepaid—under a guarantee of "absolute satisfaction or money refunded".

May we send you a copy of our complete Catalog and instructive Book on Refrigeration. It's free. Write for it today. A postal will do.

Style "A" showing Aluminized ovens,  
"Swing Down" Broiler Rack, and gas and coal hot water heater.  
Furnished with either cabinet base (as shown) or leg base.

## The Thatcher "Twin-Fire" Combination Coal and Gas Range

*"The Range with a Personality"*

The Thatcher "TWIN-FIRE" embodies many new features never before incorporated in a range, among which might be mentioned the following:

**Combination Waterback**,—supplies from 30 to 40 gallons of hot water per hour, and is heated by coal or gas or both together. More economical than Standard brass coil gas water heater.

**"Swing-Down" Broiler Rack**,—broiler pan may be swung downward and outward, away from the heat, so that whatever is being cooked may be turned easily,—without reaching into the oven or pulling out the pan. Other features are:

**Automatic Lighter**,—insures immediate flame for gas top. More convenient and economical than matches.

**"Foot-Touch" Door Opener**,—patented device which permits coal oven door to be opened by touch of foot.

**Sanitary Ash Chute**,—carries away all dust and ashes to receptacle in cellar. Does away with handling of ashes in the kitchen.

**Patented Draft Check**,—not only regulates fire, but ventilates kitchen, carrying away all cooking odors direct to chimney.

Send for the "TWIN-FIRE" Booklet.

# PAINTING

A LARGE part of Mr. Atterbury's excellent work in this locality has been painted by us, including

The J. C. Thaw Residence  
The T. E. Condon Residence  
The Parrish Museum  
Mrs. W. C. Gulliver Residence  
Mrs. Robert Waller Residence  
Dr. A. H. Ely Residence

In addition to these we have for the past thirty years done a generous share of all the cottage painting in Southampton and vicinity.

## What this famous test means to you—

Probably no demonstration of any advertised product has attracted as much attention as this famous boiling-water test of Valspar.

As a feature of Valspar advertising it has been impressive and convincing. It is a genuine test. Any one who desires can make it. And it does prove the point—Valspar will *not* turn white!

By such aggressive advertising the public has been made thoroughly familiar with Valspar's distinctive qualities.

The result is that Valspar sales are increasing enormously and continuously. 1917 was the greatest year in the history of this popular varnish.

The public—*your* public—*has been sold*.

Home *builders* know that they are getting "the best" when Valspar is specified.

Home *owners* have learned that Valspar is the most efficient household varnish made.

We make no claims for Valspar that cannot be fully substantiated. It actually does stand every test for quality and durability.

We have published a very useful book on "Varnish and Enamel Painting Specifications." A copy will be sent you on request.

## NOISELESS FLOORS

### Hydrex Saniflor Deadening Felt

**I**F a client is particularly sensitive to noises, nothing will please him better than to place a sanitary sound-proof cushion of Hydrex SANIFLOR Sound Deadening Felt under the floors, making them noiseless and pleasant and easy to walk upon. Hydrex SANIFLOR Sound Deadening Felt is a thick, soft felt with a flexible waterproof coating on both surfaces, making the material non-absorbent, vermin proof and absolutely sanitary. It is clean, durable and odorless, and is especially adapted for use in hospitals, residences, churches, schools, etc. Used by Mr. Grosvenor Atterbury in his work.
